

OBITUARY

Mr. David Dufford, of Schooley's Mountain, aged seventy-four years, went hunting last Thursday and forfeited his life for the careless handling of his gun. Its the old story of climbing over the fence with your hand on the muzzle of the gun. In this case the right hand was nearly shot off at the wrist. Doctors amputated the arm below the elbow. In his old age nature refused to bear the heavy strain on the system, and he succumbed to the effects of the wound, and amputation, on Monday.
